

Radwell: Your Trusted Source for Parts, Repairs & Solutions

We bring an unrivaled combination of MRO, automation, and electrical components to the production floor, all while delivering bespoke customer solutions.

Radwell

At Radwell International, we seamlessly blend innovation with tradition to transform the future of industrial solutions. As an industry leader, we specialize in a wide array of new and surplus industrial, electronic, and automation equipment, complemented by our expertise in component-level repair services. We're more than a company; we're a dynamic community driven by the desire to make a meaningful impact in the industries we serve.

Power Generation

Water / Wastewater

Diverse Product Selection

Our foundation is built on trust, speed, and quality. Enhanced by cutting-edge technology, we're dedicated to improving every customer experience, ensuring that we're not just supplying parts, but powering progress. We cater to your plant floor needs with both new products and innovative solutions for obsolete items, offering diverse data-driven options for effective facility management.

HOW WE CAN HELP

NEW

We offer a comprehensive range of new products, selected to meet the evolving needs of modern industry. Each product is sourced from top manufacturers, ensuring reliability and quality, making Radwell your trusted partner for all of your industrial solutions.

- 25,000+ Unique Manufacturers
- 21 Million+ Items In Stock
- 2 Year Warranty

SURPLUS

Our products include a diverse range of high-quality, cost-effective surplus products, including PLCs, HMIs, motors, drives, and electrical components ideal for budget-conscious businesses. These carefully sourced and inspected products are ideal for maintaining or upgrading systems, especially when dealing with discontinued or rare components.

- Cost-Effective Solution
- Curated Inventory, Reducing Obsolescence Risk
- Minimizing Downtime

OBSOLETE

We specialize in providing hard-to-find obsolete products, offering solutions for businesses needing old-generation automation and electronic parts to keep their existing machinery operational. These products help companies avoid expensive upgrades and extend the lifespan of legacy systems, making Radwell a vital partner for industries reliant on older technologies.

- Cost Savings
- Extended Equipment Life
- Avoiding Downtime

Repair

At Radwell, our reputation as pioneers in product repair and quality surplus is second to none. We boast a diverse portfolio of products, encompassing AC/DC Drives, CNC machines, HMI's, Hydraulics, Servo Motors, and Robotics. The cornerstone of our success lies in our team of exceptionally skilled technicians, whose extensive experience and steadfast commitment to precision guarantee that each repair adheres to the most stringent quality benchmarks. This relentless pursuit of excellence in craftsmanship has firmly established Radwell as the go-to destination for superior product repair and refurbishment services.

REPAIR CAPABILITIES

- AC/DC Drives
- Control Boards
- Control Panels
- HMI's
- Inverters
- Monitors
- Motors
- Operator Interface
- Panel Boards
- Panel Meters
- Photoelectrics
- PLC Modules
- Pneumatic Cylinders
- Pneumatic Valves
- Power Supplies
- Pressure Controls
- Process Controls
- Proximity Switches
- Sensors
- Solenoid Valves
- Speed Controls
- Starters
- Temperature Controls
- Timers/Counters
- Transmitters
- VDC Logic I/O Modules
- Plus 1,000's of other items

60%

Savings

Opting for our repair service instead of buying new can lead to savings of up to 60%.

5%

Merely 5% of our repaired products return under warranty.

Unlock the Power of Productivity

Reduce Cost and Eliminate Downtime with Radwell's Automation Lifecycle Analysis

Radwell methodically analyzes your facility's processes and presents the findings in a clear and accessible report. This detailed report provides a comprehensive overview of your production lines and highlights products in different lifecycle stages. By meticulously examining any product deficiencies, we offer insightful recommendations to ensure uninterrupted facility operations and minimal downtime.

Crucial Downtime Metrics

2 Types of Downtime

- Planned
- Unplanned

5%

Estimated productivity is lost each year due to downtime

4 Losses to Consider

- Production - Products not being produced
- Capacity - Ability to increase production
- Labor - Fixed cost for employees
- Inventory - Holding inventory is costly

AVERAGE DOWNTIME COST

\$260K

Per hour across all businesses

400

Average hours per year of downtime

\$17K

Average incident cost
